San Diego Cyber Center of Excellence, California Cyber Task Force and SPAWAR To Discuss Critical Cyber Infrastructure and Economic Opportunity at Event on October 27

San Diego—October 27, 2014—[ESET®](#), the global leader in proactive digital protection, today announced that the [Cyber Center of Excellence](#) (CCOE) and the National Defense Industrial Association (NDIA) will host a program on Monday, October 27 featuring a panel discussion on the California Cyber Task Force’s strategy to protect and secure critical infrastructure, and encourage economic development and job creation in the cybersecurity sector. The California Governor’s Office of Business and Economic Development will be moderating the panel. The program will also include presentations by the Navy’s Space and Naval Warfare Systems Command (SPAWAR) as they all discuss their challenges with cyber security and securing critical infrastructure.

Who: Cyber Center of Excellence (CCOE), National Defense Industrial Association (NDIA), the California Cyber Task Force and the Navy’s Space and Naval Warfare Systems Command (SPAWAR)

What: Event featuring an introduction to CCOE, California Cyber Task Force panel discussion and presentation by SPAWAR

Where: The Sheraton Hotel Mission Valley, 1433 Camino Del Rio South, San Diego, Calif.

When: 11:30 a.m. PT on Monday, October 27, 2014

The day will begin promptly at 11:30 a.m. PT, with the Rear Admiral and CCOE Co-Chair and President Kenneth D. Slaght welcoming guests. The panel discussion will begin at noon PT. The program will feature dynamic discussions with the California Cyber Task Force and the Navy’s Space and Naval Warfare Systems Command as they all discuss their challenges with cyber security and securing critical cyber infrastructure.

About CCOE

About Cyber Center of Excellence

The Cyber Center of Excellence (CCOE) is a public-private partnership that supplies the leadership and fosters collaboration, to establish San Diego as a worldwide center for cybersecurity products and services. Working together to build programs that promote cyber best practices among the key economic pillars of our community, and by

promoting talent acquisition, retention and development, the CCOE aims to make San Diego a magnet for an industry that already provides 13,000 jobs and invests \$1.5 billion into the San Diego region.
